Kent Wallace-Meggs

Board Member

Kent Wallace-Meggs (he/they) is a nonprofit executive with a career rooted in justice, equity, and inclusion, shaped by both professional leadership and deeply personal experiences.

As a queer leader, Kent brings lived insight into the systemic challenges LGBTQ+ individuals face, particularly around safety, belonging, and access to services. This identity fuels their commitment to building inclusive, survivor-centered spaces, whether leading organizations like WomenShelter of Long Beach or expanding access to housing and support for vulnerable populations. Their lived experience not only informs their values but also drives a bold, visionary approach to transforming systems that too often overlook LGBTQ+ voices.
